

MULTISEAL GP™

(Window & Door Gap Filler)

Aqua Multiseal GP is a grey coloured ready to use general purpose acrylic sealing paste.

WHERE TO USE: Aqua Multiseal GP is widely used to fill gaps and joints around doors, windows, fixtures and fitting or any other joints where limited amount of movement is expected. It is the most successful compound which is used between different building materials.

HOW TO USE: Before application, surface should be clean from dust, dirt, grease, oil or any other surface contaminations. Then apply primer which is available in the same container. Then mix paste & apply by hand & pack properly. Finish the surface by cleaning using sponge and potable water.

1 Make sure surface is clean, free from grease, oil, dust/dirt or any other surface contaminants.

2 Prime the surface using Aqua Multiseal Primer

3 By skelton gun or air driven gun, leveller or trowel apply Aqua Multiseal GP inside the joint with some excess material to form concave shape (which on air curing will form convex shape).

4 Finish the surface with clean water.

ADVANTAGES:

- Odourless
- Can be painted over it.
- High UV resistance.
- Ready to use. Does not require mixing
- Attractive & convenient packaging.
- Strong adhesion to the most building material

COVERAGE: Depends on usage and surface.

STORAGE: In cool and dry place.

PRIMER: Use Aqua Multiseal GP primer on all surfaces @ coverage of 5 to 8m per kg of primer (It is in the same pack).

PRECAUTION: All products should be used in accordance with the manufacturer's instructions. No responsibility will be taken by the manufacturer where conditions of use differ from manufacturer's instruction. The coverage figure/yield etc. are given for guidance only and actual field trials are recommended to ascertain the exact consumption/coverage. Not suitable on soft plastic, bare metals, bitumen or tar and also for any other underwater joints.

SHELF LIFE:	PACKAGING:
12 months from the date of manufacture when unopened.	1kg containers (12 containers in master carton)
