

AQUA POROUSEAL™

(Stone Penetrating Sealer)

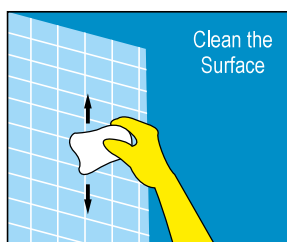

Aqua Porouseal is an economical, natural look, water based penetrating sealer which is used to get excellent stain free property with very good finishing from stones.

WHERE TO USE: It can be used as a penetrating sealer for all natural stones such as marble, granite, limestone, unglazed ceramic tile, cement pavers, quarry tiles, concrete and bricks.

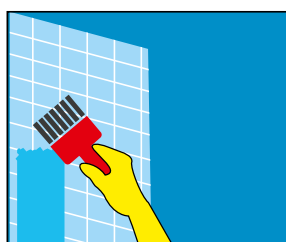

HOW TO USE:

A) SURFACE PREPARATION: Surface should be dry, clean and free of waxes, sealers or finishes. Protect surrounding surfaces. Test product in an inconspicuous area to ensure desirable results.

B) APPLICATION: Use nitrile gloves when handling the product. Apply using either a paint pad applicator, sponge or brush. Allow it to penetrate for up to 5 minutes. Wipe surface completely dry using clean, dry cotton, paper or microfiber towels after each application. Porous surfaces may require additional applications. Conduct a test to see if surface is completely sealed after 2 hours by applying drops of water on the surface. If it penetrates, apply an additional coat.
